

Mollie Harreys - Menu Sketches

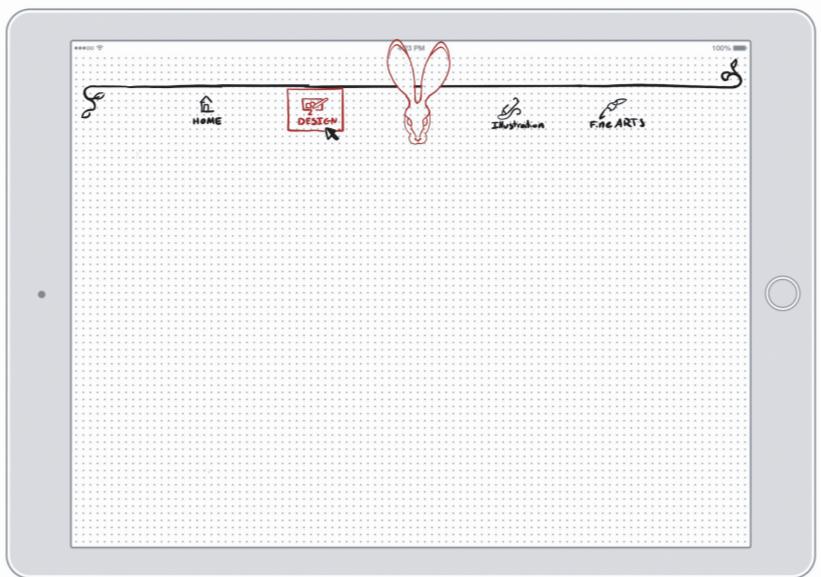

For context I have a uncommon last name and my family and I are proud its meaning "King of the Hares". Our family crest has Hare heads on it. My family has always supported my art and I feel their encouragement has brought me where I am today. I have always had an affinity for Hares and rabbits. I love skulls and have a few skull tattoos and Id like to think I am a bit edgy. The use of a red hare in this is a play on words because I am well known for my red hair. I love simple line designs and the colors red and black. The headings are based off of my own portfolio.

I am leaning most towards the first design.
